Employments

software developer

Employer: TIETO SWEDEN /

Duration: 2018-04- till now

As a developer, I work in a project belonging to a team including project managers, developers and IT architects. Together we work with both front-end development in design and presentation, primarily in C #, and with back-end development coupled with integrations and databases. In this role, I work closely with a senior developer and I will also be able to work close to other functions and departments in the business.

VEDA 2020-02 - till now | SS STADSLEDNINGSKONTORET /

Software developer

Further development for Performance improvements and authorization systems and new functionality

This project includes:

- Introduce authorization systems. Allow change of address field and other “harmless” attributes.
- Add feedback when you click something to see that it is loading.

City Archives 2018-05 - 2019-03 | STOCKHOLM STAD PARTNER / **Software developer**

The web-based e-archive is a self-service service and the information can be downloaded automatically at no charge. The information in the e-archive is classified with respect to the Personal Data Act PuL (SFS 1998: 204) and the Public and Privacy Act OSL (SFS 2009: 400), which means that some documents are impossible to access directly. However, there is the possibility to submit a request to the City Archives and thus gain access to the material.

in the current platform. However, there are some improvements that affect design and ease of use.

For example, the new platform uses Twitter Bootstrap as a framework for web design. Twitter Bootstrap is a modern framework used by millions of websites across the world. The framework supports so-called responsive design, which means that the page automatically adapts to screens of different sizes. The framework used in the City Archives 3.X is adapted to Stockholm's graphic profile.

Competencies used: MCSD SharePoint Applications Solutions Developer

Stipendieansökan 2018-08 - 2018-12 | STOCKHOLM STAD PARTNER / **Software developer**

The Education Scholarship is an e-service where students in the City of Stockholm can apply for scholarships. Previously, this was a very analog process and the new system is designed to provide Stockholmers with a better service by digitally filling in their applications.

Competencies used: MCSE SharePoint, Bootstrap, IDE_MS Visual Studio, MS SQL server, ASP.NET MVC

MTG/VIA ARBETSPLATS 302 2018-04 - 2018-10 | MTG ACCOUNTING / **cookie inventering techniques**

As an IT technician I would find inventory of their cookies on the Nordic Viasat webs. They need to know what they have, what data is stored, why and how long.

Competencies used: Experience from working abroad

Kulistan 2018-04 - 2018-08 | STOCKHOLM STAD PARTNER / **Software developer**

Developer

Amin Zare

SW Developer

The leisure app, for end users called Fun in the City, is an e-service with the aim of digitizing the distribution of leisure and cultural activities for people with disabilities. The solution consists of two interfaces.

Admin and Operator Interface where leisure developers and organizations are putting in lively leisure activities

Competencies used: MCSD SharePoint Applications Solutions Developer

Formal Education

- Science: Diploma Program Developer within SharePoint, EC- Utbildning, 2018-04
- Other: Bachelors Engineering Mine, universitetet i Tehran, 2007-06

Courses & Trainings

- Azure developer, 2018-09 [COURSE APPENDIX 1]

Certificates & Exams

- Microsoft Certified Azure Solutions Architect Expert, Microsoft, 2021-05
Microsoft Azure Architect Design + Microsoft Azure Architect Technologies [#CERTIFICATE APPENDIX 1]
- MCSE SharePoint, EC education, 2019-09
The course is especially adapted for those who want to be able to administer and build web pages in a SharePoint environment. At the same time, you get a very broad and good overview of all the opportunities that SharePoint offers.
- MCSD SharePoint Applications Solutions Developer, EC Education, 2019-09
you learn how to work with document libraries and all the possibilities these offer. You also gain the knowledge and skills to be able to work with lists, use web parts and design pages. you also learn how to make connections between SharePoint and Office and how to manage permissions.
- Developing Microsoft Azure Solutions, Microsoft, 2018-11
This exam is for candidates who are experienced in designing, programming, implementing, automating, and monitoring Microsoft Azure solutions. Passing this exam validates a candidate's ability to create and manage Azure Resource Manager Virtual Machines, design and implement storage and data strategy, manage identity, application, and network services, and design and implement Azure PaaS compute and web and mobile services
- Microsoft Azure Architect Technologies, exam AZ-303, Microsoft, 2021-05
Candidates for this exam should have subject matter expertise in designing and implementing solutions that run on Microsoft Azure, including aspects like compute, network, storage, and security. Candidates should have intermediate-level skills for administering Azure. Candidates should understand Azure development and DevOps processes.
- Microsoft Azure Solutions Architect Design, exam AZ-304, Microsoft, 2021-05
Candidates for this exam should have subject matter expertise in designing and implementing solutions that run on Microsoft Azure, including aspects like compute, network, storage, and security. Candidates should have intermediate-level skills for administering Azure. Candidates should understand Azure development and DevOps processes.
- Microsoft Azure Fundamentals, exam AZ-900, Microsoft, 2021-05
Candidates for this exam should have foundational knowledge of cloud services and how those services are provided with Microsoft Azure. The exam is intended for candidates who are just beginning to work with cloud-based solutions and services or are new to Azure. [#CERTIFICATE APPENDIX 2]
